4EU+ Alliance is hosting the upcoming webinar « **AI : Balancing Innovation with Ethics, Resilience, and Sustainability** » which will take place on 30 May 2025, at 14:15.

The event is open to the general public and aims to foster critical discussions on the role of artificial intelligence in driving innovation while ensuring ethical practices, societal resilience, and environmental sustainability.

This webinar is organised within the framework of the 1CORE project, specifically under Task 4.5, which focuses on strengthening cooperation between universities, students, experts, administration, and external stakeholders. In particular, it contributes to delivering open, research-based educational activities, providing accessible expertise to support further educational and dissemination efforts beyond the live event.
